Hi Jeremy! It was a pleasure meeting you at the ClimateCon event that was held here in Asheville a couple of weeks ago. During our conversation, Bridget Herring and I shared some of the details of the Energy Innovation Task Force that has been convened as part of the partnership between the City of Asheville, Buncombe County, and Duke Energy to enable a cleaner, smarter, and affordable energy future for our community. At that time I committed to share some additional information with you. I think the best document to give you a flavor of the work we're doing is the annual update that we file with the NCUC. Here's a link for the most recent report that was filed last week… http://starw1.ncuc.net/NCUC/ViewFile.aspx?Id=c1564312-c762-4f54-a5c7-7ceba67cfa35.

I hope the annual report provides you with the information you were looking for. If you need any additional info please let me know.

Thank you very much for your interest in this exciting work!

Robert Sipes
